PRIOR TO YOUR SURGERY

We understand that you may have some questions and anxiety about your surgery - everyone does. We want you to know that at East Paris Surgical Center, outpatient ophthalmic surgery and laser treatment is our specialty. We will do everything possible to make you feel relaxed and comfortable.

You will be contacted by the East Paris Surgical Center staff- one to two days prior to your surgery for pre-registration. This will provide the staff an opportunity to

relay important information to you about your surgery and give you a chance to ask questions.

Your physician may have ordered some pre-operative (pre-surgery) testing (such as a physical, blood test, EKG) to be completed prior to the day of surgery. In some instances, it may be up to you to have those tests completed. **If they have not been completed before the day of surgery, your surgery may need to be rescheduled.**

GENERAL HEALTH

If you develop a cold, sore throat, or any other minor illness a day or two prior to your surgery, call your primary care physician.

PHYSICAL EXAMINATION - PRIOR TO YOUR SURGERY

You **will** need to see your Primary Care Physician for a preoperative history and physical. An EKG and blood work may be required for certain surgical procedures. It is important that you keep this appointment or the surgical center may cancel your surgery. They must have this information from your doctor.

Please **DO NOT** miss this appointment. If you cannot make it on the date scheduled for you, please call your doctor's office to reschedule.

PREOPERATIVE INSTRUCTIONS:

Prior to surgery:

A nurse from the Center will call you one to two days prior to your surgery date. They will give you all of your instructions on what to do the night before surgery and what medicines to take the morning of surgery. They will confirm your arrival time to the Center and your surgical procedure time. If you have any questions regarding your surgery information, please call a preoperative nurse at **616-464-3435** or the main line at **616-464-3430**.

Place of surgery:

Your surgery will be done at the East Paris Surgical Center, LLC. The Center is located at 1000 East Paris Ave SE, suite LL01 in the lower level of the East Paris Medical Building. You may use either the “A” or the “E” entrance of the building. Please take the elevators down to the lower level.

Upon arrival:

Everything will be explained to you as you proceed through the surgery process. If you have any questions along the way – please feel free to ask them.

The registration clerk will ask you to confirm your name, address, age, employer, etc. **Please have your insurance cards and a legal form of identification available.** The clerk will have you read and sign an admission form, registration form, and advanced directive form. A nurse will escort you to the preoperative area, where they will review your information and the procedure with you. A surgical consent and consent for anesthesia will be reviewed and signed. A nurse will perform an assessment – taking vital signs (blood pressure, pulse, temperature, respiratory rate, heart and lung sounds, etc.), placing an IV catheter for fluids and medication, and applying a nasal cannula for oxygen. You will be required to lay flat for the procedure.

You will also be interviewed by an anesthesia provider. They will provide you with information regarding your anesthetic during the surgery.

THE DAY OF SURGERY:

Remember when you wake up on the day of surgery do NOT eat or drink anything – unless you have had specific instructions to do otherwise. Please refrain from smoking. Allow yourself plenty of time to get to the Center so you are not rushed.

Our nurses will give you an arrival time. Please arrive at your scheduled time to allow for registration, nurse evaluation, and anesthesia interview.

A responsible adult must accompany you, stay for the procedure, drive you home, and stay with you for a minimum of 12-24 hours after surgery. You may NOT drive yourself home from surgery.

PLEASE BE PREPARED FOR DELAYS:

We try very hard to adhere to the time of your surgery, but sometimes there are circumstances that we cannot anticipate – such as a difficult case preceding, causing a domino effect to the rest of the day. Please feel free to ask the front desk if there seems to be an extensive delay.

AFTER SURGERY:

After the surgery, you may be sleepy or dizzy. Plan to relax and enjoy the rest of your day. You will need a responsible person to stay with you for a minimum of 12-24 hours after surgery. Please call your surgeon if you have any problems or questions. They are on call 24 hours a day, every day.

- Avoid smoking the night before and the day of surgery.
- **If you eat or drink before surgery, your procedure will be rescheduled.**
